

# De La Salle College Celebrating Academic and Extra Curricular Success

DLS Pupil

December 2021

## INSIDE

### Celebrating the Success of Pupils at De La Salle College

#### Introduction

Although we cannot come together in person as a school community this year for our annual prize giving ceremony, we have decided to digitally celebrate and recognise the achievements and endeavours of our students across a range of academic disciplines, extra-curricular successes, including involvement in charity and fundraising. All of these reflect our Lasallian values and ethos as an all ability school which provides a place of opportunity for all.

However, we also recognise the success of our students as a collective endeavour, and a testimony to the hard work of pupils, staff, parents, our Board of Governors and the wider Lasallian family in ensuring our pupils maximise their potential, attainments and success as they develop into young men of the future whom we are all so very proud of.

My warmest congratulations to every prize winner 2021 mentioned in this newsletter.

Mrs Claire White  
Principal

# Sporting Success

Youcef Belouazani

Youcef won the Ulster Championship, All Scotland Championship and Great British Championship. He has now qualified for the World Championships being held in April 2022.

Kai Dynes

Year 8 pupil Kai Dynes won the Ulster Championship in Boxing @45.5kg. He was fighting for Immaculata Boxing Club.

# Special Recognition Awards

## Frank Maguire Perpetual Award for Top English Student: Eoin Gough

It was clear to anyone who read Eoin's written work at Key Stage 3- whether creative, analytical, or informative - that he was a very gifted English student. He shone. At Key Stage 4, he easily handled the demands of his Language and Literature papers and demonstrated that, when called upon to speak, he could do so with a calm assurance that made his listeners realise that he was someone worth listening to. The demands of A Level English Language also held little fear for Eoin. He once again demonstrated his creativity, writing with engagement and authority in a wide range of genres, displaying the depth of knowledge he had obtained as an avid reader. His analytical skills were exceptional and no text, not even an obscure 16th Century tract which would strike fear into the hearts of most students, posed a problem. In short - a wonderful English student.

## Bombardier Aerospace Award for Top Engineering Pupil: Matthew Whelan

Matthew had a natural flair for Engineering. He worked diligently throughout Year 13 and Year 14 showing the highest of standards in all work produced. Matthew is a superb example of how success comes to those who remain focused, have self-belief and are determined to go that extra mile to reach their full potential!

## Michael Mc Dermott Perpetual Award for Top 'A' Level Art Student: Matthew Whelan

Matthew has developed an excellent understanding of all skills and concepts. His experimentation with media is both thoughtful and purposeful. The Art department wish Matthew the best of luck with his application for University and look forward to seeing his work on display at the University of Ulster's Degree Show in the near future.

## Brother Francis Manning Shield for Faith Development: John Stewart

John has a strong personal faith which is obvious in the way he speaks to others and in his words and actions. He volunteers and gives up his time to be actively involved in liturgical celebrations and faith development opportunities. John is an inspiration to other pupils within De La Salle and the community.

### **Principal's Special Endeavour Award:**

Lewis Sands-Fitzpatrick

Lewis overcame a lot of difficulties during lockdown and the pandemic. He had great success in his Year 12 examination results and also achieved 100% attendance. He demonstrated great determination, commitment and tenacity to achieve all this, often staying after school for daily revision classes.

Lewis has a very modest, caring, quiet and friendly manner and is very well liked among pupils and staff.

He is currently in Sixth Form studying A Level Moving Images Art - for which he has quite a talent, Media Studies and Childcare Level 3, as he would like to pursue a career working with children.

### **Sports Personality of the Year Award:**

Miceal Ferris

Miceal has racked up a lot of sporting success over his time in De La Salle College. Taking part in each and every sporting activity possible, Miceal has made it on to the Gaelic Football team, Hurling team and Soccer team.

Not only is he recognized for his school sporting success, he has also proven himself valuable to his own GAA team Patrick Sarsfields GAA. Like every good player Miceal has had his county call up. He now can be found representing Antrim in Gaelic Football as well.

Miceal has proven to be a huge team player, an essential part in the make-up of the school teams. After being offered the role of captain for the school Miceal has ensured he is there for each and every member of the team. Team spirit and morale would not be the same without Miceal.

Well Done Miceal!
